

2024 - 2025 Executive Committee Nominations

Position: Vice President 3D Archery

Nominee: Sean Murray

Nominator: Allan Gunter

Nominator: Kazwel Levandoski

Relevant background and experience to the role. Nominee's reason for nomination and vision for the portfolio and organization:

I've been a part of Archery Manitoba since 2011. I started as a competitive archer and took on the role of sitting on the 3D committee in the last two years. My time on the 3D committee has given me the drive and knowledge to approach this position with a vision of seeing where 3D is headed in this province. Last summer, I played a pivotal role in bringing the ASA Tour to Manitoba, giving consistency and new excitement to 3D. Getting people excited about shooting archery drives me to want to take on this position. I believe I can do a lot of good if given this role.

Position: Vice President of Athlete Development

Nominee: Avril Hatherell

Nominator: Kelly Taylor

Nominator: Chad Sanders

Relevant background and experience to the role. Nominee's reason for nomination and vision for the portfolio and organization:

I have 26 years of experience with archery in various settings: as an athlete, a coach (including the provincial coach since 2019), and helping with tournaments. I have

competed at the national level and international events and participated as an athlete and staff member at the Canada Winter Games. These diverse experiences will help me in the VP of Athlete Development position. I love supporting the sport and helping athletes become the best they can be, and working with Archery Manitoba is another step in where I can do this.

Position: Vice President of Coaches & Officials

Nominee: Jennifer Maczuga

Nominator: Lisa Homenick

Nominator: Anika Evans

Relevant background and experience to the role. Nominee's reason for nomination and vision for the portfolio and organization:

I have many years of experience sitting on multiple provincial & community boards. I am passionate about archery and would like to promote the sport within the Division Scolaire Franco-Manitobaine (DSFM). For that to happen, there needs to be an increase in bilingual coaches and officials. I have a great working relationship with Sport en français and can see a partnership. I am well-connected in the francophone community across the entire province. I am willing to work closely with archers to inspire them to become Archery Manitoba members and grow the pool of officials and coaches.

Position: Secretary

Nominee: Siobhan Cheekie

Nominator: Shauna Klimchuk

Nominator: Vickie Oneschuk

Relevant background and experience to the role. Nominee's reason for nomination and vision for the portfolio and organization:

As an involved archery parent to an active competitor, I would like to nominate myself as Secretary of the Archery Manitoba Executive Committee. My son, Luke Bass, has been a dedicated member of Team Manitoba for one year and has been competing for two years. Watching his journey has inspired me to become more deeply involved in supporting and promoting the sport.

While this would be my first time serving on a committee like this, my professional background aligns well with the role's responsibilities. I currently manage a team of eight consultants at the Workers Compensation Board of Manitoba, where my work focuses on problem-solving, facilitating meetings, and handling substantial written correspondence, including reports, meeting minutes, and internal and external communications, for our Compensation Services division.

In addition to being an Archery Manitoba member, I have been actively involved in archery clubs in Winnipeg, which has provided valuable insight into the sport from an archer and parent's perspective. I am eager to bring a fresh perspective, contribute ideas, and support the committee's initiatives. Above all, I am committed to understanding the organization's needs and offering my skills wherever they are most valuable.
